

# Don't Look Anywhere Else For Excellent-Value 90gsm Uncoated Inkjet Plotter Paper

The Prizma Graphics store has long been a trusted source of all manner of [plotter paper rolls](#), and much of the reason for that trust lies in our 90gsm plotter paper.

[Available under the PCR90 product code](#), this heavier weight uncoated paper is an excellent choice for use with any dye and pigment wide-format inkjet printer, such as the many popular devices in this category from such brands as HP, Canon, Oce, and Epson.

## **What else do you need to know about this best-selling plotter paper?**

If you are on the lookout for 90gsm plotter paper rolls, it is probably because you are seeking a higher-grade paper than the 80gsm option, and a paper that you can depend on to provide consistently high-quality results. And when you choose our own 90gsm plotter paper, this is exactly what you will get.

This is our most popular plotter paper, and for good reason. It is a bright white, smooth report-grade paper that is ideal when you need to produce impressive-quality prints in monochrome and line colour.

Whether you are seeking to plot CAD drawings, plans, design layouts, technical documents, or just line colour work, you can place your faith in our well-proven 90gsm plotter paper. Not only will the print results themselves show superb contrast and very dense black and colour fills, but this paper will also accept higher ink loads without cockling.

Indeed, it is a more durable all-round paper than an 80gsm paper. All in all, when you choose our 90gsm plotter paper rolls, you can expect to benefit from a paper that offers strong performance, at the same time as representing great value for money.

## **We have supplies of these plotter paper rolls available right now for overnight delivery**

Would you like to be using our 90gsm plotter paper as soon as tomorrow? If so, we have it available in rolls of a broad range of sizes – from [297mm wide for A3 prints](#), right through to our extra-wide [1524mm 60"](#) rolls. 90gsm plotter paper rolls can be delivered from our well-stocked warehouse by the next day at a low cost, with discounts on high-volume orders.

So, when you are in need of plotter paper that scores as highly for quality as it does for value, including for the printing of plans, technical documents, layouts, CAD drawings and charts, why look anywhere other than the Prizma Graphics online store?

If you have any questions when you are attempting to determine the best wide-format media or other printing solutions for whatever applications you have in mind, please don't forget that you can also call our team for advice, on **01296 393700**
