

# Biometric Attendance Machine - Employee Time Attendance Management System

Secureye is one of the leading brands in Facial reader, Palm, and Fingerprint-based [biometric attendance machine](#). Our attendance machines can be used in small and large scale companies where security is a first major concern. It is a more helpful full attendance system that provides multiple employee shift management, Self-service of the employee, other

calculations. It provides an Excel-based import and export attendance sheet with an android mobile app.
