

TAFE | Engineering Plastics | EPD | Tractors And Farm Equipment Limited

[Engineering Plastics](#)

The Engineering Plastics Division of TAFE (TAFE-EPD) manufactures high precision tools and custom moulded engineering plastics at its state-of-the-art facility in Bengaluru, Karnataka, and Maraimalai Nagar near Chennai, Tamil Nadu. The imperatives of growth in the engineering plastics and tool making industries demands continuous innovations in technology and business practices. We meet this challenge by combining the most sophisticated technology with a skilled workforce, aggressive quality control systems and an unwavering dedication to customer service. The Engineering Plastics Division has a primary focus on manufacturability in injection molded engineer

ing plastics and pressure die-castings.
