

## Shanti Kai Prosperity – Jupiter Blend

Shanti Kai™ Property™ Jupiter Blend Essence can be especially helpful to overcome issue with lack, feeling of being “stuck”, struggles in relationship and jobs, or feelings of overwhelm or having to work hard with little success. Prosperity Essence™ contains vibrational infusions of flowers, orchids, gemstones, precious metals, and color frequencies, for balancing the lower chakras and developing the upper ones.

Advocates of flower essence therapy believe that these remedies work by rebalancing the body's energy field and restoring emotional harmony. They claim that flower essences can help to alleviate a wide range of emotional and spiritual issues, including anxiety, depression, grief, and relationship problems.

Although flower essence therapy is not widely recognized as a scientifically valid form of medicine, there is some evidence to suggest that it may have a placebo effect. Studies have shown that people who believe in the power of flower essences may experience a subjective improvement in their emotional state after taking them, even if the essences themselves do not contain any active ingredients.

Despite the lack of scientific evidence, many people continue to use flower essence therapy as a complementary or alternative treatment for emotional and spiritual issues. Some practitioners also recommend combining flower essences with other forms of alternative medicine, such as acupuncture or massage, to promote overall health and wellbeing.

Overall, flower essence therapy is a gentle and non-invasive form of alternative medicine that may provide some people with emotional and spiritual support. While it is not a substitute for conventional medical care, it may be a useful complement to other forms of treatment for those who are seeking a holistic approach to health and wellness.

Its core synergy includes infusions of gemstones for promoting optimism, prosperity, and opportunity, along with tree flowers which aid you in accessing the higher mind and promoting well being, higher learning, and expansion.
