

Which dog shampoo to buy online to get rid of dog ticks and fleas?

In the hustle of our everyday lives, we do somehow manage to make time for what's important. We're sociable beings who understand the importance of hygiene and grooming. However, as pet parents, we are not only responsible for maintaining our own hygiene. The responsibility of looking after our pet's grooming befalls us too. When you are looking to buy [dog shampoo](#) online, as a pet parent you would tend to go for the popular brands. Your google searches must be filled with keywords like 'earth bath dog shampoo India' and 'plush puppy shampoo India'. However, it is important to understand the needs of your dog before choosing the right shampoo for them.

Dog ticks and fleas fester very quickly in mutts, especially in summers when dryness spans its wings across all corners. Fleas and ticks can become a major nuisance and a health risk for your dog if left untreated. Ticks feed on the blood of their hosts and utilize their small but strong teeth to securely attach themselves to the skin and tissue of dogs. Ticks can spread blood-borne infections by infiltrating the bloodstream of their host. Hence, it becomes all the more important to choose the right products for dealing with ticks and fleas in your dogs.

Diagnosing the tick infestation

It's one thing dealing with ticks but identifying the infestation is a different ball game altogether. Tick larvae and nymphs are quite small and can easily be overlooked. The adult tick is roughly 3mm long and most people can see it. Tick bites create bruises on dogs in the area of the bite. It's also not uncommon for the tick to remain attached to the dog's skin.

Diagnosing the flea infestation

Fleas are just about 1-2 millimeters long, they might be difficult to detect, but there are numerous techniques to check for fleas on your dogs. You can search for irritated and red skin on your mutt's belly or hind parts. The fleas are generally red and brown in color and can be located while looking at your dog's coat closely. Fleas often appear as moving entities on your dog's skin.

Dealing with tick and flea infestations

Post identifying the tick and flea infestations in your mutt, the natural next step is getting rid of them. Giving your mutt a thorough bath with the right shampoo becomes imperative in this scenario. Following are a few shampoos and other products which you can choose from when it comes to dealing with tick and flea infestations -

1. Tropic lean's Natural Flea & Tick Shampoo- plus Soothing

This Shampoo kills fleas, ticks, and mosquitoes by contact. Our maximum strength formula repels fleas for up to 7 days. This natural essential blend contains some of nature's most powerful pest-fighting ingredients, maximized with lemongrass and sesame oil, for long-lasting effects. Powerful and effective but safe enough for routine pet baths on dogs and puppies 12 weeks and older.

2. Happy Puppy's Organic Anti-Tick Massage Oil

Our Tick off Spa massage oil is made with a blend of nourishing cold-pressed oils like coconut, sweet almond, and jojoba and anti-parasitic, anti-bacterial, and anti-inflammatory essential oils like neem, lemongrass, cedar wood, and frankincense oil. It not only helps with getting rid of existing critters but also helps prevent them when you use them as a spot-on treatment.

3. Tropiclean's AfterBath Flea & Tick Bite Relief Treatment

Spray directly onto affected areas of the pet's skin and gently massage into the coat. Do not spray in the face or eyes. May be used as often as necessary for immediate relief. It's a medicated solution formulated to quickly stop itching and irritation from flea and tick bites. This unique medicated blend effectively moisturizes and nourishes the skin for immediate relief from bites, redness, and irritated skin.
