

Full Spectrum is a dietary supplement for all members of the household, whose formula contains vitamins and minerals, needed in most physiological processes. Yet, it does not contain refined sugar and caffeine. Calivita Full Spectrum is an oral dietary supplement that can be used in case of insufficient nutrition.

Full Spectrum is a product that contains all that you need for a healthy life, in one tablet per day. It has a positive effect on the body and provides vitamins A, C, D, E, and K in small dosages with little mineral dosage. In addition to these necessary substances, it includes useful substances such as B6, B12, and folic acid. Along with the minerals zinc, iron, and selenium, it contributes to a normal immune system.

The rich composition of Full Spectrum, together with the optimal ratio of the different substances it contains, contributes to the normal function of your body. This is because its regular consumption improves immunity and reduces inflammations due to daily stress and pollution effects. In addition, this dietary supplement strengthens hair roots and reduces hair loss by improving micro-circulation in the scalp.

The dietary supplement Full Spectrum is suitable for all ages and conditions, especially when the body lacks vital substances due to a poor diet. It can be taken daily by adults and children over seven years of age.

Usage: For children from 7 years and older: one tablet daily; adults: two tablets daily; pregnant and breastfeeding women: three tablets daily. For best results, take one tablet with breakfast and the second tablet before going to sleep. It is important to consume Full Spectrum (<https://prodavnice-cvi.pharmavita.eu/full-spectrum.php>) with enough liquid (water or juice).
