Electrical Contractors Insurance Policy Information

Electrical Contractors Insurance. Electricians make the connections that allow electricity to flow and power homes and businesses. From lights to computers and from appliances to televisions, people rely on the services that you provide to make their lives easier and more convenient.

Electrical contractors install, service, maintain and repair electrical wiring, conduits and fixtures both inside and outside of residential and commercial buildings. Inside contractors install electrical wiring used for powering machinery, equipment, and lighting systems. Outside contractors install overhead power lines and underground electrical cables.

Most states require electrical contractors to be licensed. The contractor may provide 24 hour
