

# Data Exfiltration Market to 2027, Future Outlook, COVID-19 Impact Analysis, Forecast 2021-2027

The global data exfiltration market is expected to grow at a significant CAGR during the forecast period (2021-2027). Data exfiltration is a security breach that occurs when sensitive information from a company's computer or server is copied, transferred, or retrieved without authorization to a place controlled by a threat actor. Data extrusion, data exportation, and data theft are all terms used to describe the process. Financial information, such as credit card or bank account numbers, personal health information, personally identifiable information, corporate trade secrets, and intellectual property are all some instances of data breaches. Modern businesses are so large, diverse, and intricate that they have no idea what sensitive data they have or how well it is protected; they also have no idea which of their communication networks is involved in hostile data exfiltration.

Highly sophisticated and valuable digital assets of enterprises are accessed in day-to-day operations, making information hacking easier through a variety of new technologies such as remote access, cloud services, home working, and partnerships. As security solutions are widely used across the globe, data exfiltration issues appear to affect all types of businesses. Organizations, on the other hand, can greatly expand the number of ways they have to identify and repel intruders. Governments from all around the world are working on improved measures for the prevention of data exfiltration.

Online malware, internet usage, and the sophistication of data breaches are all major drivers of the data exfiltration business. As sophisticated cyber risks for crucial information theft are rising, the data exfiltration market is likely to grow in the coming years. Furthermore, the demand for cyber security solutions is expected to rise during the forecast period. Several businesses are implementing cyber security solutions with the support of their local governments. For instance, the UK government has taken several steps to detect and prevent data exfiltration. Organizations must build controls and assign protective markings to information to monitor how it is handled and what levels of protection are required to avoid simple exfiltration, information segregation, network segregation, honeypot adoption, and so on.

## **Market Coverage**

- The market number available for – 2020-2027
- Base year- 2020
- Forecast period- 2021-2027
- Segment Covered-
  - o By Component
  - o By Organization Size
  - o By Vertical
- Competitive Landscape: Broadcom Inc. (Symantec), McAfee LLC, and Cisco Systems, Inc., among others.

### **Key questions addressed by the report**

- What is the market growth rate?
- Which segment and region dominates the market in base year?
- Which segment and region will project fastest growth in the market?
- How COVID-19 impacted the market?
- o Recovery Timeline
- o Deviation from pre-COVID forecast
- o Most affected region and segment
- Who is the leader in the market?
- How players are addressing challenges to sustain growth?
- Where is the investment opportunity?

### **Global Data Exfiltration Market Report Segmentation**

#### **By Component**

- Solutions
- Services

#### **By Enterprise Size**

- SMEs
- Large Enterprise

#### **By Vertical**

- BFSI
- Government and Defense
- Healthcare

- IT and Telecom
- Retail and E-Commerce
- Others

## Data Exfiltration Market– Segment by Region

### North America

- United States
- Canada

### Europe

- Germany
- United Kingdom
- France
- Spain
- Italy
- Rest of Europe

### Asia-Pacific

- China
- Japan
- India
- Rest of Asia-Pacific

### Rest of the World

- Middle East & Africa
- Latin America

### Company Profiles

- Broadcom Inc. (Symantec)
- McAfee LLC
- Cisco Systems, Inc.

### Reasons to Buying From us –

1. We cover more than 15 major industries, further segmented into more than 90 sectors.
2. More than 120 countries are for analysis.

3. Over 100+ paid data sources mined for investigation.
4. Our expert research analysts answer all your questions before and after purchasing your report.

### **About Orion Market Research**

Orion Market Research (OMR) is a market research and consulting company known for its crisp and concise reports. The company is equipped with an experienced team of analysts and consultants. OMR offers quality syndicated research reports, customized research reports, consulting and other research-based services.
