

Venice Las Vegas Before Expansion of Poker Room

Venice Las Vegas plans to unveil a new poker room this summer. The iconic poker room will move from the Venetian casino floor to the Level 2, Grand Canal Chopes. This strategic move allows the Venetian resort to offer an unparalleled gaming experience and continue its commitment to meet the evolving needs of its players.

The new poker room will feature 50 tables spread out over 14,000 square feet of space, making it the strip's largest room. The expansion allows for an upgraded seating arrangement and a large space, where the current Venetian poker room is known.

In addition to the expanded space, the new poker room comes with a variety of amenities to enhance player comfort and enjoyment. Every aspect of the experience is curated with the player in mind, from self-service Coca-Cola soda and coffee to various options at Grand Lux, USB and USB-C charging ports on all seats, TVs throughout the venue, and dedicated restrooms. The room also features the resort's loyalty program, Venetian Rewards, and a kiosk for sports betting run by William Hill.

"The expansion of the poker room marks an important milestone in our ongoing efforts to renew the gaming experience at The Venetian Resort," said Danny Lewis, chief gaming officer at The Venetian Resort Las Vegas. "The room was designed to deliver a high gaming experience and everything from design details to enhancements was made with the players in mind." [바카라사이트 추천](#)

The relocation also improves player accessibility. Located in the main location of the second-floor Grand Canal Shoppes, the new location provides convenient access to the Palazzo self-parking area, ensuring a smooth and hassle-free experience from arrival to departure. Another benefit of the new location is that it comes close to serving additional dishes, including miznon, mot 32, and more.

The new poker room will continue to spread cash games and a series of DeepStack poker tournaments. Launching a dedicated streaming room will allow players to coordinate their blogging sessions and stream tournament final tables and cash games.

"We are investing in our players and curating the amenities based on their feedback," said Tommy Larosa, director of poker operations at The Venetian Resort Las Vegas. "We want to reveal a new room this summer and show you why the Venetian Poker Room offers an unparalleled poker experience and continue to do so."

Widely known as the best poker room in Las Vegas, the original Venetian poker room opened in 2006 and quickly became one of the most popular poker stadiums in Las Vegas. It will remain open until a new room is completed. The Venetian poker room is home to a series of popular DeepStack poker tournaments, with various events scheduled throughout the year, including the annual summer DeepStack Championship poker series.
