Jun 3, · So, if its was checked last time when PDF was printed, then it will be automatically checked for next time or vice-versa. Here I found a similar discussion going on the this topic: .

Jul 30, · But printing a standard size THEN a legal size in the same session, both print on standard size. You all have put me out of business, again. Multi size document. All print on . Make sure under “Page Sizing & Handling” that the “Size” button is selected and that the following settings are correct: 1. Size option is set to Fit. If set to “shrink” some issues may occur. 2. .

Jun 3, · How do I set the 'Choose paper source by PDF page size to be disabled for all printers. Is there a registry hack?. Jul 30, · If I select just ONE page out of a page mixed size document, yes, the legal page will print from the correct tray, without any manipulation. But printing a standard size THEN a legal size in the same session, both print on standard size. You all have put me out of business, again. Multi size document. When I print a document generated from one of our application, the document is not printed correctly if I do not uncheck the check box choose paper source by pdf page size in the printer popup. I'd like to have this checkbox removed permanently when a user wants to print a new document.
