

Solar Panels clean and free dirt can enhance a solar energy system's efficiency by up to 20%

Maintaining [clean solar panels](#) is essential for maximizing the efficiency of solar energy systems. By using specialized cleaners like [Chemtex's PV Module Cleaner](#), you can ensure that your panels remain free of dirt and grime, enhancing their power output by up to 20%. With the right maintenance tools, you can enjoy reliable energy production, lower maintenance costs, and a greener footprint—all by keeping your solar panels in peak condition.

The advertisement features a background image of solar panels, some of which are covered in a dark, soapy foam. In the top left corner, the 'chemtex' logo is displayed in white. In the top right corner, there is a white icon of a solar panel with a sun and a lightning bolt. The central text, '20% MORE EFFICIENCY STARTS WITH CLEAN PANELS', is written in large, bold, red and white letters. Below this, a red banner contains the text 'KNOW HOW' in white. In the bottom right corner, there are two blue jugs of 'DETPO S' and 'DETPO SPC' cleaner, along with a measuring cup containing pink liquid. In the bottom left corner, contact information is provided: 'MORE INFORMATION', a phone number '+91-89611-11111', and an email address 'INFO@CHEMTEXLTD.COM'.
