The types of air conditioner our service covers include split type air conditioners, window type air conditioners and cabinet type air conditioners. The service scope includes the removal of dust screens, fan blades, steering blades, face covers; cleaning of heat sink, pig cage, fan and the fuselage; draining of the water pipes; wiping of fuselage, wires and switches, and testing of the air conditioner to ensure that it works normally. Our service checkpoints will ensure no grease, fungi, and dust in the air conditioner. https://www.lazy.com.sg/ac_cleaning
