In November 2023, the South Carolina Department of Corrections carried out a sting operation at its headquarters owing to their concern with contraband, like drugs and cell phones, getting inside the jail walls. These officials are planning to conduct more random searches in hopes of eliminating illegal contraband from entering their prisons.

In the same month, the Federal Executive Council, FEC, approved the award of a contract for the supply and installation of customized explosive and contraband detection screening systems in five international airports across Nigeria.

Further, in January 2023, the National Agency for Food and Drug Administration and Control launched the Narcotic Drugs Serialisation Pilot Project, in a bid to strengthen the quality and security of medical products in the country's drug distribution network. The initiative aimed to combat the proliferation of substandard and falsified medicines by implementing a traceability system, addressing challenges posed by unscrupulous elements in the pharmaceutical supply chain.
