Worktops Direct with the Most Flexible Kitchen Prices

Whether you are looking for budget-friendly projects or high-end luxury worktops with COMPACS, our collection is an inclusive space for every customer. Work-tops aims at making home renovation an affordable and memorable experience for every homeowner. Nobody deserves to not be able to renovate their home because the stones were not affordable. Our cheap worktops however do not mean that you have to compromise on quality. We assure you top-quality kitchen worktops within your budget. Through our [Remnant](#) programme, you can buy halfcut stones, and worktop offcuts for your smaller renovations to drastically cut the expenses and with DIY skills and a little bit of fabricator help, your replacement worktops are ready.

Worktops Direct Taking Buyers Demand

Natural and engineered stone manufacturers have come up with countless variants of slabs to meet the desires of end consumers. In this globalized market, consumers get introduced to all those products and grow their interests. This gets fabricators and suppliers bound to work together and meet customer expectations. Sometimes, this complicates finding materials even from readily available stocks or outdated ones. In cases like these when a buyer is not able to find stocks for a stone of their desire, be it quartz, granite, marble or any kind of engineered and natural stones, they can make use of our [Buyers Demand Page](#) to demand their

requirement to Work-tops. 90% of the time, we can find any [stone worktops](#) for our fabricator enquiries from the wide range of collections displayed by our registered suppliers. However, on rare occasions when we are not able to do so, we as a responsible Worktops Direct will promote your requirement across the UK and help the buyer procure the desired stone from suppliers, distributors and manufacturers verified by the Stone Federation, with our interconnected network.

Registered sellers make use of this featured page to identify enquiries that they can fulfil and also identify the products which are in demand.

How Does Buyers Demand Work?

A buyer contacts us with their requirement or posts the enquiry details on our webpage which automatically sends a notification to sellers across the UK. Our verified sellers who have the material readily available in the UK, supply the stone.

We have simplified the process and are constantly updating it with better solutions.

Buyers Demand Offcuts

Suppliers as well as fabricators wanting to get rid of their offcuts can display them on our [Remnant page](#). Other fabricators and various buyers will make use of this platform to get the

offcut of their desire. They can choose suppliers within and around their region with the help of the details of suppliers readily displayed. Those buyers looking for stone offcuts which are not displayed on our readily available Remnant Page can place their demand using our [Stone Finding Service](#).

Natural & engineered stone suppliers can [sign up with us for free](#) to receive enquiries about Buyers' Demand, directly in your sales inbox.
