Once you understand the core principles, you'll get why we consider this the very treatment available. Your skin has several layers. The deepest, known as the support layer, is responsible for supplying collagen to the top of layers. However, over time, this collagen begins to deteriorate, and the support layer is less efficient at replenishing it. Economical in wrinkles, fine lines, and other visible signs of age. EverEssence Skin Cream delves deep into that support layer and restores its ability to generate collagen, reversing these negative effects.
