

Aluminium Recyclers provider Prime Metal Recycling is now at Truelocal

Electric motor and cable wires, copper, air conditioning, automobile batteries, factory clean-ups, brass, [aluminium recyclers](#), steel rims, stainless steel, engines, gearboxes, and radiators are just a few of the materials we have experts in scrapping.

Since it is illegal to throw away scrap metal in a dustbin, we advise getting in touch with a scrap metal firm in your area for assistance in properly disposing of such things.
