

How to login the Dlink Router

To [login to D-Link router](#), connect your computer to the router, open a web browser, and enter the router's IP address into the address bar. The default IP address for D-Link routers is usually 192.168.0.1 or 192.168.1.1. Enter the default username and password for your router, which is usually "admin" for both. Once logged in, you can configure your router's settings as needed. It's recommended to change the default username and password for your router for added security.
