

# About Us GT Invest

GT Invest - was founded in 2019 as a project designed to help investors and businessmen who want to implement their project on the territory of Ukraine.

Since then, the work of the company has been aimed at comprehensive support of business ideas and their implementation.

The mission of GT Invest — is to open up the potential of Ukraine as a business landscape for investors and to take on all the difficulties associated with the launch of projects on the territory of Ukraine.

## **GTInvest ensures the provision of integrated services**

- Relevant market environment research and analysis, depending on the project.
- Strategy development and a phased plan for the project implementation refining.
- Business model management organization.
- Individual software product development.
- Every company is formed by people, their interaction, and complementarity.

In my own experience, I am convinced that the effectiveness of joint and purposeful teamwork

qualitatively exceeds the effects of individual work.

Synergy makes it possible to "go beyond" and create something ambitious and large-scale.
