

Boiler Installation Cost in London – A Complete 2025 Guide

Boiler Installation Cost in London

When winter arrives, a reliable heating system isn't a luxury – it's essential. If your old boiler is failing or you're fitting one in a new property, understanding the [boiler installation cost London](#) helps you plan with confidence.

At **London Plumbers**, we're often asked: *"How much does it cost to install a boiler in London?"* Here's a clear breakdown based on current 2025 prices, the factors that affect costs, and tips for choosing the right system.

What Is the Average Boiler Installation Cost in London?

The **average cost of a boiler installation in London ranges from £1,800 to £3,500**. The exact figure depends on:

- **Type of boiler** – combi, system, or conventional
- **Output size** – larger homes need higher-capacity boilers
- **Brand and efficiency rating** – premium, high-efficiency models cost more but save energy long term
- **Additional work required** – new pipework or relocation increases costs

Tip: At London Plumbers, we provide clear, itemized quotes so you know exactly where every pound goes.

Boiler Replacement vs. New Boiler Installation

There's a key difference between simply **replacing an old boiler** and **installing a completely new system**:

Boiler Replacement in London

- Swapping an old unit for a new one in the same location
- **Lower cost** because labour and materials are minimal

New Boiler Installation in London

- Installing a boiler for the first time or converting from one type to another
- **Higher cost** due to extra pipework, tank removal, or system upgrades

Types of Boilers and Their Costs

1. Combi Boilers – £1,800 to £2,500 installed

- **Best for:** Flats or small homes with limited space
- **Advantages:** Heats water on demand, no storage tank required

2. System Boilers – £2,000 to £3,000 installed

- **Best for:** Medium to large homes with multiple bathrooms
- **Advantages:** Stores hot water in a cylinder for high-demand use

3. Conventional Boilers – £2,500 to £3,500 installed

- **Best for:** Older properties or homes with very high water needs
- **Advantages:** Works with separate hot and cold water tanks

We install all major brands – from cost-effective options to **premium high-efficiency boilers** with extended warranties.

Additional Costs to Consider

When planning your **boiler installation cost in London**, factor in:

- **Power flushing** to clear sludge – £300 to £500
- **Smart thermostat installation** – £150 to £300
- **Flue replacement or extension** – required if old flue is incompatible
- **Boiler relocation** – moving your boiler can add £500 to £800

At **London Plumbers**, we always provide a **full cost breakdown upfront** – no hidden charges.
