

# CFO Strategies LLC

From accounting and bookkeeping to strategic planning and business contingency, [CFO Strategies LLC](#) provides your small business with Chief Financial Officer (CFO) services and financial services. With industry-specific expertise in construction, architecture & engineering, transportation & logistics, non-profit & more, we tailor our services to meet your specific business needs in an affordable way. Our services can be performed on-site or virtually, generally designed for companies that need these services on a permanent part-time basis. Our goal is to become part of your team. We do this by providing the relevant financial information, expertise, and services that keep you moving forward. You will establish a mutually beneficial relationship with us, which ultimately benefits your business - all at an affordable cost.

Running a business and having to go through endless invoicing is certainly not a walk in the park.

Would it not be nice to have someone do the time-consuming work of accounting and invoicing and leave you to your real work?

CFO Strategies specializes in providing Chief Financial Officer (CFO) services, financial controller services, bookkeeping services, and virtual accounting services. We tailor our services to meet your specific business needs in an affordable way.

Businesses lack a professional and experienced financial officer on hand to assist with cash management, loan structuring, forecasting, reporting, and banking relationships.

How much is your business losing by not having someone on staff or available to ramp up for an upcoming project?

Our financial officers have all been CFOs of leading companies. They are ready and waiting to assist your company with the burden of a CFO – at a fraction of the cost (and time).

Finding the best service provider for your business needs can be time-consuming, expensive, and error-prone. Differences in what needs to be done and the cost of doing it results in a lack of comparability between service providers.

How can you choose the best service provider? How will you know they will deliver and solve your problems?

By choosing CFO Strategies LLC. We are experts in financial accounting, financial planning, cash flow analysis, bank relations, internal controls, and more. Our skilled team provides services to clients across a variety of industries with customized solutions that are right for your business needs.

Need a new CFO or want to improve the performance of your current one?

Hiring a new CFO is an expensive proposition, so wouldn't it be nice if there was a way to try them before you buy?

We offer affordable CFO services that are available on-site locally and/or virtually. We have experience with multiple industries and can help you when your need may only be part-time or just temporary. For example, if you're a start-up business looking for someone to set up all financials, that's what we do. If you're looking for additions to your current in-house team, we

can do that too! Our services help you free up your time so you can focus on what you do best. Our virtual assistants work remotely offering flexibility in addition to affordability...
