What is SOMA used for?

SOMA is the brand name for generic medication known as CARISOPRODOL. SOMA is a kind of opioid pain medication that is used for treating moderate to moderately severe kind of pain. A patient can now buy SOMA online from any of the online medical websites.

SOMA another use includes using it for relieving pain from back pain, sciatica, and for postoperative pain following spine surgery. For most adults, the maximum safe dose is 300 mg per day of immediate-release tablets. It has been proved that SOMA hydrochloride can allow a significant reduction in the dose of NSAID without compromising the relief of pain.

SOMA classification

SOMA works very much similar to opioid (narcotic) analgesics. SOMA works in the brain to change how your body feels and does respond to the pain. SOMA is a synthetic man-made pain reliever analgesic. SOMA is not a nonsteroidal anti-inflammatory drug (NSAID) therefore it does not have an increased risk of stomach ulcers and internal bleeding that can occur with NSAIDs.
