

## Virtual Reality in COVID19 Times

The overarching principle of 'self-reliance' mentioned by honourable Prime Minister [Shri Narendra Modi](#) is the need of the hour. Aatmanirbhar Bharat ( self resilient/ reliant India) is the best way forward for our nation to shine in the 21st century.

Local is now global, and we need to be vocal about it. Its a Quantum leap in "[COVID19](#)" times as the entire economy is going to change, and the Swadeshi campaign is going to rule the mind of people for a very long time. The pain of lockdown will have a very ghastly and lasting effect on people's minds. The lifestyles will change craving new paths of survival where you do business without meeting the person, and people are learning it very fast. The best example is the young kids who are having a gala time over the internet and schooling virtually.

So this generation of millennials knows virtual/AI/Robotics in and out, and they are our future. With India having the youngest population, our adaptability to change is smoother.
