

High-Quality Collet Racks for Professional CNC Shops

Uratech USA Inc. is a leading manufacturer and designer of high-quality [collet racks](#) crafted to meet the demands of professional CNC machine shops. Our racks are specially engineered for various types of collets, including **ER, DR, RD, TG, and DA collets**. We support a range of sizes, from **ER-11** through **ER-50, DA 100** to **DA 300**, and **TG 75** to **TG 150**, to accommodate diverse CNC tool holding needs. Our collet racks provide an organized, efficient way to arrange collets, offering CNC shops a more productive and visually appealing workspace.

Premium Material and Design

Each of our collet racks is manufactured from **cold-rolled, powder-coated steel**. This material not only ensures strength and longevity but also provides a smooth, professional finish. The powder coating adds extra durability to withstand everyday wear and tear while protecting the steel from rust and corrosion. Our simplified design philosophy focuses on maximizing functionality, providing a sleek and efficient layout for collet storage without taking up unnecessary space in the shop.

Features and Benefits

- **Versatile Compatibility:** Our collet racks are designed for **all types of collets** – from **ER, DR, RD** to **TG and DA** types.
- **Wide Range of Sizes:** Support for a variety of sizes including **ER-11, ER-16, ER-20, ER-25, ER-32, ER-50, DA 100, DA 180, DA 200, DA 300, TG 75, TG 100**, and **TG 150**.
- **Robust Construction:** Made from durable **cold-rolled, powder-coated steel**, our racks withstand tough shop environments.
- **Efficient Organization:** Simplified design helps professionals arrange collets neatly, improving both accessibility and aesthetics.

Fast Shipping for Your Convenience

For customers across the **USA, Canada, and Mexico**, we offer **same-day delivery**, helping you minimize downtime and keep your operation running smoothly. We also ship worldwide to support [CNC](#) shops wherever they are located, so you can access our reliable storage solutions wherever you operate.

For more information or to place an order, please call us at **1-800-813-0537** or send an email to Info@cnctoolstoragesolutions.com. We're here to support your CNC tooling needs with premium collet racks built for efficiency and durability.
