

# The Cost of Building a Custom Home

**iRemodel**  
RESIDENTIAL CONSTRUCTION & RENOVATION

## HOW MUCH DOES IT COST TO BUILD A CUSTOM HOME?

Something extremely important to remember is that the build cost on its own is not the final cost for a home build. Factors such as arborists, landscaping and permits contribute to the final price, and in some cases, even fees from the city can be required.

iRemodel Home Renovations has put together a recent blog post outlining what the cost is to build a custom home. Since each project is different, the guideline gives a general estimate. Oftentimes, it will cost about \$250-350 or more a square foot - depending on the quality of the build. To get the full rundown, check out this blog post.

Our team performs professional custom [Renovations in Toronto](#) and we would be pleased to work on your project with you next. 🏠 ✨
