The best of the best, these shows really make me proud to say I'm an anime fan. They have either impacted me on an emotional level, or have depicted great story telling to the point where the episodes felt like they were 5 minutes long. These kind of anime are the only ones that I can 100% absolutely recommend to anyone. These are the shows that leave you with a void upon completion, the bittersweet feeling you receive from experiencing something truly awe inspiring. It may not be master pieces to others but in my personal opinion, these are perfect anime in every way

[b][size=200]9/10[/b][size]

[img]http://i.imgur.com/xHvXjoT.jpg[/img]

Some of the best anime that have been brought to light, but there is just a certain element of the anime that's preventing it of getting a 10/10. Usually involving pacing speed. Like a 10/10, you feel empty after completing these, wishing you could just erase your mind and watch it over and over again.

[b][size=200]8/10[/b][size]

[img]http://i.imgur.com/8K48EWY.jpg[/img]

An exceptional show, that I truly have respect for. These usually have a couple of problems, but I overlook most of the time because of how much I value the shows effort. Definitely the kind of anime I will look back on and say: "I'm glad this was made"

[b][size=200]7/10[/b][size]

[img]http://i.imgur.com/dYeAzkH.png[/img]

These anime are what I like to call Popcorn pieces. Shows that you can watch and not think too deep about it, and still get a good run out of it, and really make you think that sitting

through those episodes was worth it. These usually have multiple problems, but the amount of fun and enjoyment you experience when seeing these is just so high. Rewatching these wouldn't be the best idea, because the quality of the material would diminish.

6/10

It's an ok show. Had good moments but had an equal amount of times where it wasn't appealing. May have had promise but either poor execution or too many glaring problems kept it from being better. I don't hate these shows, but at the same time I don't love them. It's somewhere in the middle.

5/10

Just as a 5 sounds, these anime are really 5's, just plain average, in my eyes everything is in black and white. They have so much potential but they don't execute it, and try to take the safe route. Well I like to call that the boring route. Life is about taking risks, and if an anime can't put any effort into being something unique, or hell even a little bit different, then it's just a bland show that's a waste of my time.

4/10

This is where the anime I watch becomes unwatchable to a certain degree, and also this is the point where finishing the show becomes a chore. May only have a few redeeming qualities keeping it from being a complete failure. I would definitely not recommend these anime at all to anyone.

3/10

There is 0 to only 1 redeemable quality, train-wrecks or 'bottom of the barrel' type shows. These really put me to sleep, even more than a 5.

2/10

WHY??? that is the one word that comes to mind when seeing these. These shows have almost nothing going for it. It's shit, bad....No heart or effort seemed to be placed into it. Avoid these like the plague.

1/10

Only a masochists would find these good in anyway at all. You couldn't pay me to rewatch this kind of trash. These anime need to do something, and that is to VANISH forever.

"A human being made exclusively of virtue can't possibly exist. Kindness is nothing but the tip of the iceberg that is a human being, there is always a counterpart. If there be light, then there is darkness; if white, black. It's an anecdote that sees right through human nature"

Oshino (Nekomonogatari)

Love is really just a drug to ease the fear and uneasiness of loneliness, but that fear will be waiting for you once the drug wears off. In the end there's really no difference from living alone.

Yuichi (Oyasumi Punpun)

When do you think people die? When they are shot through the heart by the bullet of a pistol? No. When they are ravaged by an incurable disease? No. When they drink a soup made from a poisonous mushroom!? No! It's when... they are forgotten.

Dr. Hiruluk (One Piece)

Miracles don't exist in this world. There are only inevitability and accidents

Yuu Himura (ef: A Tale Of Melodies)

Anything can happen. No one ever thinks it will until it does. What will happen, happens. That's how the world is. The most important thing is to not let the tragedy defeat you. To believe that you can get through it.

Kyousuke Natsume (Little Busters Refrain)

It's natural for a person to deny he's a failure as a human being. That's why he searches for somebody who is more miserable than himself. That's why so much animosity exists on the internet. Those who aren't able to find a more miserable person turn to the internet and call

other people losers, even though they've never met. Just to make themselves feel superior. There's a sense of security that comes from speaking badly of someone else. But that isn't true salvation
