The global gum and wood chemicals market size will grow from \$356.76 billion in 2022 to \$397.08 billion in 2023 at a compound annual growth rate (CAGR) of 11.3%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, causing inflation across goods and services and affecting many markets across the globe. The global gum and wood chemicals market size is expected to grow from \$581.54 billion in 2027 at a CAGR of 10.0%.

The gum and wood chemicals market segments in the report are:

- 1) By Product Type: Gum Arabic, Guar Gum, Wood Chemicals, Charcoal, Tannic Acid
- 2) By End User: Commercial, Industrial, Household
- 3) By Sales Channel: Direct Sales, Distributor
