

IEC is a custom cable manufacturer in Denver, Colorado for over thirty years. We have made cable assemblies and harness assemblies for all industries including Medical, Military, and Aerospace applications.

We are experts that can handle large or small quantity orders. Our technical staff can ask you questions if necessary, to be sure you get what you need. We will let you know whether what you are doing will work or not. As always, we will build the cable according to your drawing. We keep all drawings on file in case you need to order the same cable again.

We have thousands of products that we sell with highlights including: OEM cables, TV wall brackets, 50 ft & long HDMI, 8K 4k & 2.1 HDMI, fiber optic, db19 and mini din connectors, VGA to HDMI, VGA conduit for rapid run VGA, wall mount racks, apple duo drive, and meeting and conference room audio video.
