

Live Media Inc

Phone : 416-802-5750

Website : <https://livemedia.biz/>

Live Media is a webcasting and live streaming company catering to clients throughout the GTA , the province of Ontario, and Canada. We specialize in both live webcasting and film-capture services for view-on-demand internet use, as well as videoconferencing and conference recording.

Co-founders Carrie and John Darmody ensure Live Media maintains a proven reputation for high quality production, customer service excellence, and on-time delivery. Their commitment to quality and service starts with your first introduction and ends with, well, that's just it: it doesn't end. Live Media staff have extensive and accredited experience, producing both live and view-on-demand events. One of our producers won the 2010 Amethyst Award (Innovation) for excellence in public service, for developing and implementing an in-house webcasting service for internal use within the provincial government of Ontario.
