Category:

Fertility Clinic

Description:

At Los Angeles Surrogacy Center in California, our mission is to provide intended parents with the most comprehensive and personalized service available. We recognize that surrogacy can be a complicated process, and our goal is to seamlessly coordinate every aspect of the surrogacy, from tracking and scheduling egg retrievals, to referring you to the best legal team and fertility specialists. We work with all types of recipients, regardless of sexual orientation or marital status.

We strive to listen carefully and attentively to your specific requirements on every level. We listen to what your preferences are in terms of what type of surrogate may work best for your specific needs; for example, while some recipients may prefer to maintain an on-going relationship with a surrogate mother even after the birth of their baby, others will prefer to have little or no contact after the process concludes. We listen to your concerns regarding the multi-layered costs involved with the surrogacy process, and strive to keep them as reasonable as possible, without compromising on the quality of the surrogate or medical procedures necessary for a positive outcome. Most importantly, we are here to carefully screen and select the most well qualified surrogate mother imaginable.

Our process involves extensive psychological examinations, full background checks, and our own due diligence to ensure that the surrogate mother who carries your baby is an exceptional surrogate. Our surrogacy agency in Los Angeles is here for you 7 days a week, 24 hours a day, to answer any question or concern which may arise.
