

Sodium Dichromate Market size 2021 Global Trends, Top players, Demand, Share, Segmentation to 2027

Market Segmentation

The global sodium dichromate market is segmented on the basis of application and region. By the application, the market is segmented into metal finishing, pigments, wood preservatives, leather tanning, and others.

Regional Analysis

The global [sodium dichromate market size](#) includes five regions namely Asia Pacific, North America, Europe, Latin America, and the Middle East & Africa. Asia Pacific is the leading region in this market owing to increasing usage of the pigments in textile, dye and paints sector. Surging demand for pigments in China and India owing to need for high-quality products is likely to bolster market growth. Increasing sodium dichromate usage in wood preservatives is slated to boost regional market growth in North America. Companies using chromium in wood preservatives have to enroll themselves with the U.S. Environmental Agency (EPA) due to the harmful impact of chromium on the environment and human health, which may restrict the market growth to some extent.

Complete Report Details @ <https://www.marketresearchfuture.com/reports/sodium-dichromate-market-5754>

Market Overview

Sodium dichromate acts as a medium for producing other chromium compounds. It is used for producing chromic anhydride, potassium dichromate, and aluminum dichromate among others. It is used as a mordant in dyeing on fabrics to increase the colorfastness. Rising demand for pigments in packaging and dyeing sector is expected to drive the market owing to the ability to produce a huge range of colors. It has been increasingly used in the automotive, construction, electrical and aerospace industries to provide resistant coating to the surface of the metal. Growing use of sodium dichromate in metal finishing due to its function as a corrosion inhibitor is expected to contribute to the market growth positively. Rising per capita income and change in fashion trends have increased the demand for the leather products.

Wood preservatives are being increasingly used for extending the lifespan of wood products in various applications such as decking, utility fencing, and agriculture. Additionally, increasing usage of wood preservatives by furniture and construction industry is also propelling the market growth. Surging demand for the product in Asia Pacific region, especially in emerging economies such as India and china due to rapid industrialization is driving the market growth.

Competitive Analysis

Major players in the global **Sodium Dichromate Industry** are **Soda Sanayii (Turkey)**, **Elementis plc (UK)**, **Vishnu Chemicals (India)**, **Lanxess (Germany)**, **Nippon Chemi-Con Corporation (Japan)**, **Yin He Holdings Limited (Hong Kong)**, **Sichuan Chemical Group Co., Ltd (China)**, **Haining Peace Chemical Co., Ltd (China)**, **Gansu Qiyuan Chromate-Chemical Production Co., Limited (China)**, **Tianjin Mingyang Chemistry Industry Co., Ltd (China)**.

NOTE: Our Team of Researchers is Studying Covid19 and its Impact on Various Industry Verticals and wherever required we will be considering Covid19 Footprints for Better Analysis of Market and Industries. Cordially get in Touch for More Details.

About Market Research Future

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
