Background

Gabriella was born from the unlikely pairing of Lucifer and an unnamed Angel. She's the Princess of Hell and was given to Lucifer at birth. Her Angel mother wanted nothing to do with her or her father after the Fall. She doesn't know who her mother is, nor does she actually care to find out.

Feeling like her father didn't appreciate everything she did, and also because she was bored out of her damn mind, she left Hell for a new realm. Not the Mortal Realm as she'd been there plenty of times before and wanted something different... Something new! Something exciting! With that thought in mind, she went traveling....
