

Scrap Metal Recycling provider Prime Metal Recycling is now at Callupcontact

With locations all across Victoria, Prime Metal Recycling is a privately owned business that collects scrap metal from your location anywhere across Victoria. Our knowledgeable staff will assist you in any way possible to properly dispose of tiny to large metals at the proper time and location.

Our primary service is the collection of [scrap metal for recycling](#) in the commercial, industrial, and home sectors. Our main responsibility is assisting our clients with picking up the materials from their location and delivering them to the storehouse.

Electric motor and cable wires, copper, air conditioning, automobile batteries, factory clean-ups, brass, **aluminium recyclers**, steel rims, stainless steel, engines, gearboxes, and radiators are just a few of the materials we have experts in scrapping.
