

# Get Exceptional Land Surveying Services from Electra Surveying Engineering Services

Summary: The following press release is all about a leading land survey company – Electra Surveying Engineering Services that offers exceptional services to all clients.

Land surveying is a legally sufficient and scientific method that is most commonly used to decide the location of points on Earth's surface, the angles formed by such points, and also, the distance between them. If we talk about land surveys, they incorporate elements of Maths, Physics, Geometry, law, and engineering into determination. If you are planning to invest in a particular piece of land for the construction of a house or an office, then you should do a property assessment for overall evaluation or regular appraisal. We, Electra Surveying Engineering Services, are one of the top **Land Survey Companies Dubai** that is motivated by system integration, research work, and innovation.

Established in 2017, we have made great recognition all over the world for offering world-class services. Some of our top services include 3D laser scanning & modeling, underground utility surveying, LiDar-equipped UAV, equipment and manpower hiring, hydrology study and hydraulic modeling, and more. Being amongst the leading **Approved Land Surveyors in Dubai**, we possess great capabilities to grasp quickly new concepts and ideas which are linked to Geospatial industries. By availing of our services, you can reach your goals efficiently. What's more, we have built a strong relationship with our clients.

The prime objective of our company is to develop a large clientele base. Our main attributes are leadership skills, responsibility, high-performance standards, and a positive attitude. For surveying, we use state-of-the-art technology like Robotic Total Station, GPS, and aerial and terrestrial scanners. What's more, we are proficient in deciding the land measurements and size. To all businesses, we also offer a range of equipment such as **Pix4d Photogrammetry Software**, Leica infinity, LISCAD, Autocad and Autodesk Civil 3D, Trimble business center, and a lot more. In our company, we hire highly experienced technicians and surveyors who have a great understanding of unique landscaping design.

We are a premier company that delivers reliable and accurate plans in different formats. Some of our top clients are FEWA, Strabag, Idroesse Infrastructure, CMEC, EDF, AECOM, Raibal,

Almayya Group, Arabtec, and Core Engineering Consultancy, to name a few. So, what are you waiting for? Get in touch with our team today to request a free quote!
