

Remote Work Tools

REMOTE WORK TOOLS

Tools for Collaboration and Communication

Slack

A flexible communication solution that allows team members to collaborate and communicate in real-time. Slack makes it simpler to connect and collaborate successfully by offering specialized channels, instant chat, and file-sharing features.

Zoom

Zoom is the preferred video conferencing solution for online conferences, webinars, and distant meetings. Zoom provides screen sharing, recording, and high-quality video and audio features.

Google Workspace

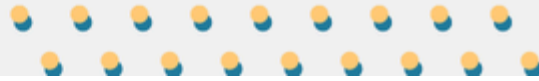

Gmail, Google Docs, Sheets, and Slides are just a few of the productivity tools available with Google Workspace, formerly known as G Suite. Real-time collaboration, document sharing, and seamless

Google service integration are all made possible by these solutions.

Trello

Trello offers a visual and user-friendly interface that enables both individuals and teams to effectively monitor progress, assign tasks, and interact.
