Varicose Veins
TREATMENT IN
DELHI

1 SPIDER VEINS
Dilated skin capillaries create a spider-like appearance in the legs.

2 VARICOSE VEINS
Varicose veins are enlarged, swollen and twisting veins, often appearing blue or dark purple.

3 LEG EDEMA
Varicose veins progresses to edema. Chronic leg swelling, itchy skin, restless leg, severe aching or cramping.

4 SKIN CHANGES
Discoloration appears as a stain on the skin due to blood leaking from vessels and into the skin tissue.
