

Join Covalense Digital at Innovate Asia 2024!

We are thrilled to be a part of Innovate Asia 2024! Experience our groundbreaking Catalyst Project - SmartHive xG: Horizon and dive into an exclusive speaking session that will dive into how AI-driven strategies are reshaping the future of business ecosystems.

Discover SmartHive xG: Horizon

The phase II of SmartHive xG, Best Moonshot Catalyst project under Growth Challenge category at DTW 2024. This new phase of SmartHive XG builds upon the existing platform by incorporating advanced AI-driven enhancements, expanding its reach into new industries, and bridging key verticals including education, health care, tourism.

The aim is to build an integrated platform that enhances service delivery across industries and supports B2B, B2C, and B2B2X services. By leveraging AI-driven innovations, Smart Hive XG will improve the user experience, unlock new opportunities for industry partners, and foster growth.

Catalyst Project Key Highlights

- Digital marketplace for onboarding and integrating diverse industry partners.
- AI powered campaigning and advertisement for hyper – personalization and higher conversion rate.
- Zero – Touch partnering (ZTP) to streamline partnering interactions and automate processes for efficiency and cost savings.
- Customer 360(C360) Dashboard with widgets and analytics to provide actionable insights and accurate forecasts for revenue growth.
