

Don't ask for names in my posts!! I will ban you. You can ask in PM's. If I know, I will tell you.

Since I get many requests here, there is a cue, first come first serve, so be patient!!!

There may be a delay of 1-2 days before I can fulfil your request. Remember, I am just a single dude, not a band. So please do not ask me when I will upload your request. It will be uploaded when I am ready.

Check this list often BEFORE you waste my and your own time requesting off-limits models (This list updates often, so check it daily). If a model is on this list, there is a reason, usually, it got deleted for copyright reasons, so under no circumstances will I fill requests if the model is on this list.

I DON'T DO: Reposts, Gay, Trans, Anime, private unverified stuff (don't ask me to post your GF), or free accounts (check before you ask). I also do not share in private, so do not ask me if I can share this or that, it won't happen. I share with everybody, or not at all.

Please provide a link to the model in question, as to be sure who you are requesting. Simply writing: "Anna" is not going to help me locate her. I prefer the full name and artist name (IE Onlyfans link and name).

If you get an answer: Added

It means the model was added to the cue

If you get an answer: No

It could mean the model was not leaked, so nothing was available, there was not enough to

make it worth it, or simply that I didn't agree with the model. It is my page however, and I post only what I like.

So please do not start a discussion about why I answered no. A no is simply that, a no.

If you request an off-limits model several times in a row, without checking this list, I might ban you for wasting my time. Just a heads up.

These models are off-limits and can not be requested:
