General Tips for Collision Repair

- **What should I do immediately after an accident?**

After ensuring everyone's safety, exchange contact and insurance information with the other party involved. Document the scene by taking photos of the damage and surroundings. **Contact your insurance company** to report the accident and then reach out to a certified collision repair center like Auto Aid Collision for an estimate and repairs.

- **How do I choose the right collision repair center?**

Look for a **certified repair center** with a strong reputation, experienced technicians, and a commitment to using genuine parts. Read reviews and ask for recommendations. Auto Aid Collision meets all these criteria and offers the added benefits of comprehensive insurance assistance and a lifetime warranty on repairs.

- **Is it necessary to use genuine parts for repairs?**

Yes, using **genuine parts** is crucial for maintaining the integrity and performance of your vehicle. Genuine parts are designed to fit and function perfectly with your vehicle, ensuring optimal safety and longevity.

- **How can I ensure my vehicle is repaired correctly?**

Choose a certified repair center like **Auto Aid Collision**, where technicians are trained to follow manufacturer standards. Ask for a detailed estimate and ensure that the shop uses genuine parts. Review the warranty offered on repairs to ensure long-term coverage.

- **What is the importance of maintaining a record of repairs?**

Keeping a record of all repairs and services performed on your vehicle helps in future reference and can enhance the resale value of your vehicle. It provides a detailed history that can be useful for future maintenance and claims.

- **How often should I perform regular maintenance on my vehicle?**

Regular maintenance should follow the manufacturer's recommended schedule, typically found in your vehicle's owner's manual. Address any minor issues promptly to prevent them from becoming major problems. **Regular check-ups** help ensure your vehicle remains in optimal condition and can prevent some types of collision damage.
