MY POEM

Now all my verses I write on my skin.

Most of them dedicated to you and you know something now I have plenty of paper what i not need. My role now is my skin and there among everything I write I tell you that I love you.

On my skin is my calligraphy on it I write my emotions, my values and my love for you. But you know something? I'm missing skin to keep writing everything I feel.

That's why now my lips open to say it.

My lips open to ask that my paths lead me to you.

My lips open so that this, my wish, be granted to me promptly.

My lips open to promulgate my love for you, my illusion for you.

My lips open to ask the universe that you are here soon.

Then I do my rituals in which I invoke you, because my being and my soul await you, I praise the universe with my verses, I praise the universe with my dance, I praise the universe with my music. Then I ask you close to me, next to me, you and I will be one.

I feel a fire in my body, my body calls you, my body acclaims you. Come you a me ? Or do I go to you? Answer me promptly because it is my desire to be by your side. You complement me and I complement you.

Come and put out this fire that lights up in my body for you. I want to know something love: Do you feel the same for me? I hope so. God has told me yes.

I want to be the owner of the wind, I want to be the owner of the sea and I want all this for i will use these elements to build the path that you must follow to reach me.

Come darling, I'm showing you the way, come darling, I'll be waiting for you and this has been going on for some time now.
