

The second miracle is Heungkuk's desperation

The object of resentment, which caused the most pain, is now a person who has to send enthusiastic support. Heungkuk Life director Marcello Avon terminal brought up a pleasant joke about Pepper Savings Bank.

Heungkuk Life won a set score of 3-0 25-22 27-25 25-20 in an away match against Hyundai Engineering & Construction in the sixth round of the Dodram 2023-2024 V-League at Suwon Gymnasium in Gyeonggi Province on the 12th. [스포츠투토](#)

Heungkuk Life Insurance had 27 wins and 8 losses and 76 points for this season. It narrowed the gap with top-ranked Hyundai E&C 25 wins and 10 losses, 77 points to one point and maintained the possibility of reclaiming the top spot.

Heungkuk Life Insurance can rise to the top if it wins three points in the final regular league match against GS Caltex on the 15th and Hyundai Engineering & Construction is caught by Pepper Savings Bank on the 16th.

Heungkuk Life Insurance failed to gain points as it was caught up with the lowest Pepper Savings Bank with a set score of 1-3 on the 8th. It wasted the opportunity to leap to the lead over Hyundai Engineering & Construction.

With the victory, however, the team achieved its first miracle to rank No. 1 in the regular league. The team will have to win the match against GS Caltex on the 15th and leave the results of the match between Hyundai E&C and Pepper Savings Bank the next day. Coach Avon terminal seemed to have more of an afterimage of the defeat against Pepper Savings Bank than the joy of beating Hyundai Engineering & Construction. If he had won the Pepper Savings Bank match, he could go straight to the championship game on his own without having to count the number of cases.

"I don't feel very good about the last match against Pepper Savings Bank," Avon terminal said. "Actually, I can't change the past. I will try my best to enjoy this victory, but it is a pity to lose against Pepper Savings Bank on March 8. We have to see what the rest of the matches will look like."

"I wonder if there has ever been such a ranking battle in the V League until the end," he said. "Even if we finish second in the final, it is also surprising that there are more games to win than Hyundai E&C."

Going directly to the championship game as the No. 1 player in the regular league is a huge merit. It gives the main players plenty of rest and time to reorganize the team.

Of course, the top-ranked team in the regular season league is not guaranteed to win the championship game. The probability of a top-ranked team winning the championship in the regular season league out of the 17 V-League women's championship games is 47.05 percent eight times, which is not surprisingly high.

Right away, Heungkuk Life Insurance won the championship game as the No. 1 player in the regular league in the 2022-2023 season, but failed to win the trophy as it lost to the Korea Expressway Corporation with two wins and three losses. It has fallen victim to a drama called "Upset" that will remain in the history of the V-League.

However, Heungkuk Life Insurance, which has a high age group of its main players, desperately needs a break. Even Kim Yeon-koung, dubbed "the empress of volleyball," confessed after the opening match on Sunday, "It is true that I am physically exhausted." For this reason, director Avon Danja hopes that Pepper Savings Bank will spray "pepper powder" against Hyundai Engineering & Construction on the 16th. He wants to do a legal "lobby" if he can.

"I want to send a fruit basket to Pepper Savings Bank," manager Avon terminal said. "We will finish the GS Caltex match well and watch the match between Pepper Savings Bank and Hyundai Construction."
