# Moving articles to Trash

We know how important is content created by our users. We want to help you keep it safe.

All users who created free account on JustPaste.it will probably notice a small change in the user panel. Articles removed by user will now be available in Trash. After that articles can only be read by the author.

🗑 Trash

While in Trash, you can use **Restore** button to put article back online or **Delete forever** button to remove it permanently. All articles in Trash are also permanently removed after 30 days from initial removal.

Trash will help you not to lose some valuable content by mistake.
