**Catagory:**  
[roofing contractors](#)

**Description:**

A commercial roof can last anywhere from 10 to 30 years. That's a broad timeline, and how long the roof will last depends on a number of factors-like the roofing type, building style, and maintenance history.

Leaks, missing shingles, and damaged tiles are all signs of wear a tear on a roof. If you're worried about the state of your commercial building's roof, it's always best to have a professional inspect it.

We'll perform a thorough inspection-keeping an extra eye out for water pooling on flat roofs-and let you know whether it needs replacement. If it's time to replace your commercial roof, our qualified technicians will provide you with a no-obligation quote.
