

Lee Kang-in, the 'return of gold', is about to return to PSG

French media "Foot Mercato" said on the 19th (Korea Standard Time), "Lee Kang-in played his best performance in the game against the Taeyeuk Warriors after being separated from PSG for more than a month. This bodes well for PSG, he said, welcoming Lee Kang-in's return.

"This is the moment when Lee Kang-in shone. He scored two goals against Tunisia and performed very well. He scored one goal and one assist against Vietnam. His two brilliant performances can do a lot for PSG, who are unsure at the moment," he added.

Lee Kang-in left Mallorca this summer and moved to Paris Saint-Germain (PSG). As a result, it was necessary to re-discuss whether to transfer to the Hangzhou Asian Games, which was held with Mallorca. For PSG, if Lee Kang-in returns with a gold medal around his neck, there is an advantage in that the military problem will be solved, but there is also a burden of having to recruit players for a certain period of time.

It's twice this season alone. Lee Kang-in is highly likely to play not only at the Hangzhou Asian Games but also at the 2023 Asian Football Confederation (AFC) Qatar Asian Cup in January. For PSG, they have to send Lee Kang-in twice a season.

Fortunately, PSG allowed Lee Kang-in to transfer. But there was an injury variable. Lee Kang-in was injured after starting in the second round of the French Ligue 1 in the 2023-24 season against Toulouse in August. PSG officially announced on the club's website at the time, "He suffered an injury to the left leg of his leg and will receive treatment at least until the end of the A match break."

I went through a long rehabilitation. Lee Kang-in focused on personal training and rehabilitation for a while after his injury. For the first time, he conducted team training with his colleagues and raised his form. Lee Kang-in announced his return as a substitute in the UEFA Champions League (UCL) match against Dortmund.

He then headed straight to Hangzhou. However, as the arrival of Hangzhou was on the 20th, it was impossible to play in the first group match against Kuwait. Coach Hwang Sun-hong did not send him to the match against Thailand on the 21st in consideration of his condition problems. Lee Kang-in played with the players for the first time in the third match against Bahrain. Afterwards, Lee Kang-in played the game by adjusting his playing time under the consideration of coach Hwang Sun-hong. Although he failed to achieve an offensive point at the Asian Games, he helped his team win the championship.

Lee Kang-in, who won the gold medal, announced that his form has returned through the A-match Tunisia and Vietnam matches in October. Lee Kang-in started against Tunisia and scored an additional goal along with the first free-kick goal to report his A match debut goal. In the match against Vietnam, Lee Kang-in also scored one goal and one assist to lead the team to a 6-0 victory. [토토사이트](#)

It's a return of gold. Lee Kang-in is now returning to PSG. For coach Luis Enrique, Lee Kang-in is essential. Currently, PSG has powerful resources ahead, but its creativity is considered somewhat disappointing in the midfielder line. Enrique is a coach who mainly utilizes a 4-3-3 formation. He has already played in a 4-3-3 formation since his appointment at PSG. Mbappe, Gonzalo Hamus (Colo - Muanyu) and Dembele form a three - top.

Manuel Ugarte is guarding the back of the three midfielders. On the left of the remaining two seats, Vitorinha and Fabian Lewis are competing. Warren Zaire-Emery has been appointed to the right midfielder position so far. However, Zaire-Emery was born in 2006 and is still in the process of growing up. Therefore, Lee Kang-in is expected to be placed on the right side to compete with Zaire-Emery.
