Location of Triund above sea level:

Before we delve deeper into the trek's details, let's address the fundamental question of "[Triund height from sea level](#)?" Triund sits at an altitude of approximately 2,850 meters (9,350 feet) above sea level. This elevation not only ensures stunning panoramic views but also makes it a challenging yet achievable trek for adventurers of various skill levels.

Triund Trek Difficulty:

Triund is a trek that's accessible to both novice and experienced trekkers. Its relatively moderate gradient and a well-marked trail make it a popular choice among enthusiasts. The trek usually takes around 4–6 hours to complete, depending on your fitness level and the time taken for frequent stops to soak in the breathtaking scenery.

Triund Current Temperature:

As you prepare for the trek, it's crucial to know what kind of weather conditions to expect. The [Triund current temperature](#) at significantly throughout the year. During the summer months, from March to June, the days are pleasantly warm with temperatures ranging from 15°C to 25°C (59°F to 77°F). However, nights can get quite chilly, with temperatures dropping to 5°C to 10°C (41°F to 50°F).

In contrast, the monsoon season from July to September brings heavy rainfall, making the trek challenging due to slippery paths and landslides. Therefore, the best time to embark on this adventure is during the autumn months, from October to December, when the days are clear, crisp, and temperatures range from 10°C to 15°C (50°F to 59°F), and nights can drop to 0°C to 5°C (32°F to 41°F). The winter season from January to February sees heavy snowfall, making the trek inaccessible to most.
