Looking to get car insurance in the USA or Canada? Read on for everything you need to know about the two countries' laws and policies. Here are some key points:

1. In the USA, car insurance is required by law. All drivers must have auto insurance in order to operate a motor vehicle on public roads. This includes anyone who drives for a living, regardless of whether they own a car.

2. The policyholder is responsible for their car and all activities that occur inside it- including parking and driving. If something happens to your vehicle, you will be held liable for any damages (even if you were not at fault).

3. Canadian drivers generally do not need car insurance, but it is still beneficial to have it in case of an accident or theft.
