The Future of GRC is Here:
Explore the Advantages of COMPASS

01 **Unified Compliance:** Unifies all compliance efforts by supporting major global standards (ISO, SOC 2, NIST, etc) and includes libraries for RBI, SEBI, GDPR, and other regulations.

02 **Designed for Compliance-First / BFSI Organizations:** Specifically built to meet the needs of businesses prioritizing compliance in their operations.

03 **Continuous Compliance:** COMPASS enables real-time compliance oversight, designates control owners, and ensures continuous audit readiness at all times.

04 **Risk Assessment:** Identify vulnerabilities and implement necessary controls.

05 **Incident Management:** Rapid response planning and breach notification workflows.

06 **Third-Party Risk Monitoring:** Ensure your vendors comply with data privacy requirements.

07 **Employee Training Modules:** Foster a security-first culture within your organization.

08 **Eliminate Spreadsheet and SharePoint Dependence:** Streamlines your processes in one integrated platform.

09 **Simplified Evidence Collection:** Effortlessly gather and manage evidence for audits and assessments, saving time and reducing complexity.

10 **Expert Support:** Benefit from the expertise of over 100 dedicated GRC consultants ready to assist you in navigating compliance challenges.
