

MHRA Registration to get UKCA Mark for selling Medical devices

The [MHRA Registration](#) database contains manufacturer name, address, MHRA reference (account) number, all the devices registered by GMDN term. MHRA Registration must be renewed one year after your registration application or confirmation was made and every two years after this date. If your registration is failed to renew, there will be removal of your records from the MHRA database. After which you need to apply for a new registration or you will no longer be able to place your device on the UK market.
