Penny Stock Disclosure: Many of the securities we profile are considered penny stocks. Penny stocks inherently involve high risk and price volatility. You may lose your entire investment in any penny stock that you invest in. You should be acutely aware of the following information and risks inherent in any penny stock investment that you may make, including any issuer profiled on our websites or otherwise: (a) we receive monetary or securities compensation from persons that claim they are a non-affiliate shareholder or an issuer; however, we conduct no due diligence whatsoever to determine whether in fact they are a non-affiliate; (b) there is an inherent conflict of interest between our information dissemination services involving various issuers and our receipt of compensation from those same issuers; (c) we may buy and sell securities in the securities that we provide information dissemination services, which may cause significant volatility in the issuer's stock, price declines from our selling activities, permit us to make substantial profits while we are disseminating profiles or information about the issuer, yet may result in a diminished value to the stock for investors; (c) we conduct no due diligence on the content of our Publications; (d) Penny stocks are subject to the SEC's penny stock rules and subject broker-dealers to customer suitability rules and other requirements, which may lead to low volume in the securities and/or difficulties in selling the shares; (e) penny stocks are often thinly traded or have low trading volume, which may lead to difficulties in selling your securities and extreme price volatility; (f) many of the penny stocks we profile or provide information about are subject to intense competition, extreme regulatory oversight and inadequate financing to pursue their operational plan; (g) the issuer profiles and information we provide is wholly insufficient to formulate an investment decision and should not be used in any way as a basis for making an investment decision and, at the most, it should be used a starting point from which you conduct an in-depth investigation of the issuer from available public sources, such as www.sec.gov, www otcmarkets.com, www.sec.gov, yahoofinance.com, www.google.com and other available public sources as well as consulting with your financial professional, investment adviser, registered representative with a registered securities broker-dealer; (h) we urge you to conduct an in-depth investigation of the issuer from the above or other available sources, especially because we only present positive information, which is an insufficient basis to invest in any stock, yet alone a penny stock; accordingly, you should proceed with such investigation to determine, among other things, information

pertaining to the issuer’s financial condition, operations, business model, and risks involved in the issuer’s business; (i) the issuers we profile may have negative signs on the otcmarkets.com website (i.e. Stop Sign, No Information, Limited Information, Caveat Emptor), which you should determine from entering the symbol of the stock profiled into the otcmarkets.com website; (j) you should determine whether the issuer we profile or provide information about is a development stage company, which is subject to the risks of a development stage company in a similar such business, including difficulties in obtaining financing for operations and future growth; (k) because we only present positive information regarding an issuer, ; you should conduct an in-depth investigation of any possible negative factors regarding such issuer; (l) our information is “as is” and you your use of the information is at your own risk and such information may change at any time and it is not based upon any verification or due diligence of the statements made; (m) we state that profiled stocks are consistent with future economic trends; however, future economic trends or analysis has its own limitations, including: (i) due to the complexity of economic analysis as well as the individual financial and operational characteristics of an individual issuer, such economic trends or predictions may amount to nothing more than speculation; (ii) consumers, producers, investors, borrowers, lenders and government may react in unforeseen ways and be affected by behavioral biases; (iii) human and social factors may outweigh future economic trends and predictions that we state may or will occur; (iv) clear cut economic predictions have their limitations in that they do not account for the fundamental uncertainty in economic life, as well as ordinary life; (v) economic trends may be disrupted by sudden jumps, disruptions or other factors that are not accounted for in such economic trends analysis; in other words, past or present data predicting future economic trends may become irrelevant in light of fully new circumstances and situations in which uncertainty becomes reality rather than of predictive economic quality; (vi) if the trends involves a single result, it ignores all other scenarios that may be crucial to make a decision in the event of various contingencies; (n) the information we disseminate about issuers contain forward looking statements, i.e. statements or discussions that constitute predictions, expectations, beliefs, plans, estimates, projections as indicated by such words as “expects”, “will”, “anticipates”, “estimates; therefore, you should proceed with extreme caution in relying upon such statements and conduct a full investigation into any such forward looking statements; (o) forward looking statements are limited to the time period in which they are made and we do not undertake to update forward looking statements that may change at any time; and (p) we make statements in our profiles that an issuer’s stock price has increased over a certain period of time; however, these statements only reflects an arbitrary period of time, and is of little or no predictive or analytical
