

# Used Lab Equipment Reseller The Smart Choice for Researchers

Lab equipment is a crucial component in scientific research, but purchasing new gear can be costly for scientists and research institutions. This is where used [laboratory equipment](#) comes in as a smart alternative for researchers looking to save money and get quality equipment.

A Quantum Technology is a company that specializes in selling pre-owned laboratory gear that has been thoroughly tested and refurbished. These companies are a great resource for scientists and institutions that are on a tight budget but still want access to high-quality equipment.

One of the biggest advantages of purchasing used lab equipment is cost savings. Scientists can save up to 50-75% off the cost of new equipment by choosing pre-owned gear. This allows researchers to stretch their budgets and allocate more funds towards other important aspects of their work, such as supplies, personnel, and data analysis.

Another advantage of used lab equipment is that it has often been tested and proven in previous research settings. This means that researchers can have confidence in the reliability of the equipment and that it will perform as expected. In addition, used lab equipment has often been used for a shorter amount of time compared to new equipment, which means that it is still in good .

In addition to cost savings and reliability, used lab equipment is also an environmentally-friendly option. By choosing pre-owned gear, researchers are reducing waste and keeping equipment out of landfills. This not only helps to conserve resources, but it also helps to reduce the carbon footprint of the scientific community.

Finally, used lab equipment resellers often offer a wide variety of equipment and accessories, making it easy for scientists to find what they need. They also offer customer support, maintenance and repair services, and warranties, which can give researchers peace of mind when purchasing pre-owned gear.

In conclusion, choosing a [used lab equipment reseller](#) is a smart choice for researchers looking to save money and get quality equipment. Not only do they offer cost savings and

reliability, but they are also environmentally-friendly and offer a wide variety of gear and support services. So, for those looking for budget-friendly and sustainable solutions for their lab, a used lab equipment reseller is definitely worth considering.

# USED LAB EQUIPMENT RESELLER

Industrial equipment supplier

## Lab Freezers & Refrigerators

7.5 Ton Chiller Portable  
Maximum Advantage M1  
460v '14

Please contact us with  
questions!  
Stock: #S6LLST9404

**\$2,800.00**

## Medical Equipment

Thermo Scientific  
Steri-Cult CO2 Incubator  
3307

Please contact us with  
questions.  
Stock: #S6LLST8159

**\$1,800.00**

## Fume Hoods & Biological Safety

8' Fume Hood Bench-Top  
Hamilton SAFEAIRE

Contact us with  
questions.  
Stock: #S6LLST9509

**\$5,000.00**

## Cabinets, Sink Base

Lab Casework Stainless  
Sink Bundle St Charles 5'  
1/2

call us with questions!  
Stock: #S6LLST7281

**\$1,200.00**

## Balance Tables

46x22x29 4' Balance  
tables Very Heavy!

Please contact us with  
questions.  
Stock: #S6LLST2141

**\$900.00**

## Cabinets, Base

Sink Universal Stainless  
Steel Hand Sink 15x17x19

Please contact us with  
any questions.  
Stock: #S6LLST9319

**\$180.00**
