

Empowering the Future: Azure Power's Pledge to Sustainable Energy for All in 2030

Earth in 2030 is a dream most of us are working hard towards. By imbibing the United Nations' [Sustainable Energy](#) Development Goals in our mission at Azure Power, we are ensuring access to affordable, reliable, sustainable, and modern energy for all to mitigate the ill effects of climate change. As we mark this year's SDG Summit being held between 18-19 September,

we renew our commitment to helping India achieve its Net Zero target, thereby contributing to achieving the goals of SDG 7 and SDG 13.
